Ponting Foundation – Funding Guidelines for Tasmanian Projects

The Ponting Foundation is committed to funding charities in Tasmania that make a significant difference to young Tasmanians with cancer and their families, and to other approved health-related projects in Tasmania.

The following guidelines provide an overview of the funding process followed by the Ponting Foundation in association with the Department of Health and Human Services, Tasmania.

Priority and Assessment of Applications

Priority will be given to projects that:

- Clearly identify a gap in service delivery and provide an effective and cost efficient solution;
- Offer support opportunities to those young Tasmanians who are hardest to reach i.e. geographically or socially disadvantaged;
- Demonstrate collaborative working across service providers;
- Have a focus on peer support, physical and mental wellbeing or supporting the young person's family network; and,
- Provide measurable outcomes.

Applications will be assessed on:

- The quality of the proposal and its potential impact;
- Their relevance to young Tasmanians with cancer and their families, or to other health-related projects deemed worthwhile by the assessment panel;
- Evidence of the necessary endorsement by the host organisation including:
 - Deductible Gift Recipient status for income tax purposes and referred to under item 1 of the table in section 30-15 of the Income Tax Assessment Act 1997; and
 - Being a charitable organisation by law;
- Evidence of the necessary leadership to drive the initiative
- Justification of resources
- Evidence of how the organisation is making, or has made, a difference
- Aligned values with those of the Ponting Foundation

Assessment of all applications will be by a joint panel of the Ponting Foundation and the Department of Health and Human Services, Tasmania.
